

Evolve Workplaces is excited to announce a new business model for Mediators. This new model allows you to focus on what you do best, being a Mediator and allowing Evolve to support you via our backend business systems as well as access to work from our customers. This unique model allows you to earn money from your customers whilst also working elsewhere, something most contractors find impossible. Most contractors also don't save Superannuation, our model ensures your superannuation is included.

Our model works one of four Levels:

- Level 1** - You do Mediation work for your customers through Evolve, and we do all the paperwork and invoicing for you. (We charge a small fee for this)
- Level 2** - You do Mediation work for our customers – we supply you the job
- Level 3** - You do repeat work for an Evolve customer who specifically asks for you to do the job
- Level 4** - You have a job come in when you already have work so we provide another Mediator and you earn commission for the work as well, allowing you to earn twice in the same day.

The payment structure is as follows:

Levels	% of Revenue to Mediator	Evolve Service Fee
Level 1	80%	20%
Level 2	42%	58%
Level 3	46%	54%
Level 4	You 10% Mediator 2 63%	27%

Benefits to you

1. National Coverage as an Evolve Mediator
2. Evolve does your Marketing
3. We pay your Superannuation for you
4. Bookings/Diary Management/Diary provided
5. We do all Invoicing - RCTI - We collect revenue on your behalf
6. We do all client follow up
7. Professional Development - Every two months
8. Records kept for Professional Development
9. We issue your tax invoices, no more invoicing by you
10. We list you on our site as your own business but under our brand
11. No need to market yourself - we provide the work to accept/decline
12. Two Payment cycles per month - 15th and 29th

Requirements:

- You must bring all your Mediation practice work through Evolve
- You will need to utilise a company so we can issue you with a recipient created tax invoice - this is an ATO requirement for recipient created tax invoices
